<input type="checkbox"/> Flammable/Combustibles stored correctly	<input type="checkbox"/> Chemicals stored correctly
<input type="checkbox"/> Excessively warm/overheated cords or equipment:	<input type="checkbox"/> Fire extinguishers inspected (identify by Serial #) 5KL7P (inspected 6/15), 5KL7R (inspected 6/15), and 5KL7Q (inspected 6/15). No inspections performed for July, August, or September as of time of inspection.
Additional Comments, notations, and abatement information (including date): As always, the NCOSH Review Commission maintains an excellent and safe work environment. The only minor issue that I found was that the fire extinguishers were not currently inspected (they are three months out of date) due to the person formerly in charge of inspection leaving. They will inspect these extinguishers as soon as they learn the process for doing so.
