ETTA Safety Committee

Subject: ETTA Meeting with Carlene Harris (co-member from ETTA).

Carlene and I met on to discuss current committee issues and safety and health ETTA plans. We discussed our goal for inspections to look at OSHR recommendation of reducing state wide injuries of slips, trips, and falls. The space heater document was looked at for the 3 foot rule which the safety steering committee has inspected several locations and found that the 3 foot rule cannot be maintained 100% of the time. Update to come at the next steering committee meeting. The policy for relocatable power taps will be coming soon. Next safety steering committee is set for July15, 2015.
